

Stop Being the Chief Everything Officer. Stay in Your Genius Zone. Delegate with AI.

G.R.O.W. AI helps businesses, organizations, and professionals identify the bottlenecks stealing time, leads, and opportunity - then puts the right mix of people, process, automation, and AI exactly where it belongs.

Three Ways People Work With Us

Grow My Business

Find the bottleneck costing you time, then fix it with the right mix of strategy, automation, and AI.

Prepare My Organization

Build AI confidence, strengthen workflows, and help teams use AI responsibly and practically.

Reposition My Career

Turn what you already know into visibility, income, and new options through SCALE BAE(TM).

What We Help You Build

AI Strategy & Consulting

AI opportunity mapping, workflow reviews, implementation planning, and practical AI guidance.

Automation & AI Agents

Voice receptionists, lead capture, follow-up, workflow automation, chatbots, and connected systems.

Training & Workforce Development

AI literacy, team training, workshops, community education, and workforce readiness.

Digital Growth & Visibility

Websites, digital tools, content systems, presentations, pitch decks, and visibility support. Custom solutions may also include business planning, grant support, apps, and specialized AI implementations.

KNOW WHAT YOU NEED?

Book a Discovery Call

Talk with us about your goals, bottlenecks, and the right next step.

How We Work

1

Discover

We learn how your business or organization works today.

2

Identify

We pinpoint the bottleneck costing time, leads, consistency, or capacity.

3

Design

We build a tailored plan around your goals - not a generic AI package.

4

Implement

We build, train, test, and adjust at a pace your team can absorb.

The Gaps We Help You Close

- Missed calls and lost leads
- Inconsistent follow-up
- Repetitive questions and manual work
- Disconnected systems and tools
- Marketing that stalls
- No clear AI plan

A PRACTICAL START

Start with the problem, not the platform. We recommend only what fits your goals, capacity, and team.

Keep Humans in the Genius Zone

Best handled by people:

- Judgment
- Relationships
- Sales conversations
- Creative direction
- High-stakes decisions

Great candidates for AI / systems:

- First-response intake
- Routine follow-up
- Scheduling and reminders
- Drafting and summarizing
- Repeatable admin

Meet the Founders

Charla Winbush

Co-Founder & Chief AI & Empowerment Officer

Charla leads AI strategy, implementation, AI literacy, and accessible digital transformation - translating what AI can actually do into practical business solutions.

Adrienne Winbush

Co-Founder & Chief Operating Officer

Adrienne leads operations and client experience, helping turn strategy into systems people can actually use and sustain.

Strategy before software. Your voice protected.
A human in the loop.
